

2022-2023 DEALER GUIDE

A small, white potato with a human-like face, including eyes, a nose, and a smiling mouth, is positioned centrally below the first line of text.

**WHAT DOES IT TAKE
TO GROW A PEI POTATO?**

IT TAKES AN ISLAND!

Growing world famous potatoes is much more than an industry here in Prince Edward Island, it's been a way of life for Island farmers since the 1700s. Our growers are extremely close to the soil – most have grown up on the land they continue to farm. In fact, many Island families are connected in some way to the farm, either through direct employment or through their family and friends.

The pride that PEI growers take in producing our Island's most plentiful crop stems from hard work and generations of experience that ensures their success.

We have over 200 years of experience growing high quality potatoes on an island that's ideally suited to produce the best potatoes you've ever tasted.

FROM PEI TO THE WORLD!

WE'RE NO SMALL POTATOES

- #1 potato producing province in Canada
- #1 export for Prince Edward Island
- 2.5 billion pounds of potatoes shipped annually
- Shipped to over 20 countries around the world

WHAT'S OUR SECRET?

The people and the place — it's in our nature.

- Growing world famous potatoes has been a way of life for Island farmers since 1790
- Family farms account for 96% of the industry with many growers having grown up on the land they continue to farm
- Island growers proudly practice environmentally sustainable farming practices and follow the most stringent environmental standards in Canada

ENVIRONMENTAL SUSTAINABILITY & LAND STEWARDSHIP

We show respect for the land by committing to:

- Soil health and nutrient management
- Erosion prevention and controls
- Responsible pest management
- Environmental farm planning
- Waterway protection through buffer zones and strict regulations
- Grower-funded research
- Highest standards of on-farm food safety practices

NUTRITIONAL POWERHOUSES

- Potatoes have 0 grams of trans & saturated fat
- 45% of your recommended daily intake of Vitamin C
- 18% of your recommended daily fibre intake
- More potassium per serving than broccoli or bananas
- Consider keeping the skins on as they contain important nutrients and dietary fibre
